ALMA MATER

Pure as the dawn on the brow of thy beauty
Watches thy soul from the Mountains of God
Over the fates of the children departed,
Far from the land where thy footsteps have trod.
Beacon of hope in the ways dreary lighted,
Pride of our hearts that are loyal and true,
From those who adore unto one who adores us
Mother of Mothers, we sing unto you.

CHANCELLOR'S AWARD

Presented to - Leland R. McGinness

Leland R. McGinness was born in Burlington Junction, Missouri. He received his bachelor of arts degree in business and history at the University of Maryland in 1962, his master's degree in science hygiene (hospital administration) in 1966 at the University of Pittsburgh with a grade point average of "A" and was honored as Class Marshall for Academic Achievement. He earned both of these college degrees while in the United States Air Force, where he worked from 1948 to 1970 in various capacities. From 1967 to 1970, as chief of the Plans and Hospital Division of the Surgeon General's Office, 5th Air Force, he was responsible for plans and operations of three hospitals and nine dispensaries in Japan, Korea and Okinawa. In 1971, he retired from the United States Air Force, joined the private sector and on June 14, 1972, was appointed the chief executive officer at Arkansas Children's Hospital.

From 1972 to his retirement in August 1983, he led Arkansas Children's Hospital through the planning phase for future development and to its commitment to becoming an academic health center for pediatrics in our state. During 1979 to 80, The University Hospital transferred its pediatric beds to Arkansas Children's Hospital and this University-Arkansas Children's Hospital combination was successful in receiving a highly rated bond issue for new construction that formed the foundation for all future expansion at Arkansas Children's Hospital during this past decade.

At all times, "Mac" has been obsessively committed to easily accessible, high quality, comprehensive healthcare for the children of Arkansas, and, in that context, he has held the deep belief that this could only be achieved by bringing the strengths of UAMS commitment to service, education and research to Arkansas Children's Hospital.

Leland McGinness is truly the father of modern healthcare of children in our state. His dedication and vigorous leadership has established the base for all the professional programs between our two institutions. We are honored to present Leland R. McGinness with the Chancellor's Award for 1991.

CHANCELLOR'S AWARD

Presented to - Randall O'Donnell, Ph.D.

Randall L. O'Donnell was born in Gary, Indiana and received his bachelor of arts degree in economics (magna cum laude) from California Lutheran College and his doctor of philosophy degree in hospital and health administration from the University of Iowa in 1977. Starting in 1977, he began serving the associate administrator at the Children's Hospital in Buffalo, New York. In 1980, Dr. O'Donnell moved to Arkansas as the administrator/chief operating officer at Arkansas Children's Hospital and, in 1983, he was appointed the chief executive officer, succeeding Leland McGinness.

During the past eight years, Dr. O'Donnell has guided Arkansas Children's Hospital to national prominence. A three-phase construction plan increased the capacity of Arkansas Children's Hospital to 265 beds, making it the sixth-largest children's hospital in the United States. A medical office complex for UAMS faculty was completed in 1987 and a new research facility is under construction at this time. Dr. O'Donnell has worked closely with the Governor, the Arkansas General Assembly and the Arkansas Department of Human Services to maximize Medicaid reimbursement for the care of children and today Arkansas has one of the most comprehensive clinical care networks for children in the country. Throughout this time, he has vigorously supported the academic programs of UAMS in education and research, as well as clinical care. In fact, Arkansas Children's Hospital serves as the pediatric site for all medicine, nursing, pharmacy and allied health programs for the state of Arkansas.

Dr. O'Donnell has been active in the local community through church, Rotary Club, and the Young Presidents Organization. He has served on various committees of both the National Association of Children's Hospitals and Related Institutions and the Arkansas Hospital Association. Since 1983, he has served as a member of the Board of Directors of the Osmond Foundation Children's Miracle Network and as its chairman of the board from 1988 through 1990. He also led the foundation's initial efforts in bringing the Telethon to the Soviet Union and China.

Randall O'Donnell's deep commitment to pediatric service, research and education has had a major impact on our state since 1980. Because of his leadership and vision, we are honored to present Randall O'Donnell with the Chancellor's Award for 1991.
